A photograph of a street scene in Tewkesbury, Gloucestershire. On the left is a traditional half-timbered house with a thatched roof and a brick chimney. In the center is a tall, narrow white building with two windows. On the right is a red brick building. In the foreground, a canal with a wooden bridge is visible, reflecting the buildings and sky.

Tewkesbury, Newent and Staunton Locality Development Plan

2015-17

As a locality we cover a large geographical area including two council districts, which has presented some unique challenges.

We have worked hard to make our commissioning plans applicable to all our patients, regardless of their geographical location. We have strong engagement with all our member practices and our regular meetings always have full representation allowing for collaborative working. We also have a strong locality reference group that involves patient participation group leads as well as regularly liaising with Tewkesbury Borough Council, Gloucester Care Services, and Healthwatch, all of whom have attended our monthly meetings. We hold regular study afternoons with good attendance from all practices covering a wide range of topics pertinent to our commissioning plans.

We have successfully implemented near patient testing in the form of local access to 24 hour ECGs. We have also looked at acupuncture and pain management and currently have a pilot scheme extending the provision of acupuncture across all member practices. This service has been audited with positive results. We have recently launched a Social Prescribing scheme enabling practices to refer patients with non-medical needs who would benefit from social and voluntary sector input. We have also actively engaged with the Care Home enhanced service as well as the implementation of Integrated Care Teams (ICT) which has led to improved care for our patients closer to home and avoided emergency admissions.

Our focus for the next two years will include continued review of the acupuncture service to inform future commissioning of pain management services, development of the social prescribing scheme and further analysis of the utilisation of local services in view of the recent opening of a new community hospital and the ongoing plans for a new practice build in Tewkesbury. We will also continue to engage in CCG countywide projects supporting member practices in their implementation of these plans to improve the health of our patients.

Dr Sarah Fearn, Tewkesbury, Newent & Staunton Locality Chair

1 Purpose

1.1

This Locality Development Plan has been produced to describe the specific health needs for the population of Tewkesbury, Newent and Staunton, and sets out how the Locality Executive Group will lead work to address these needs over the next two years.

2 Background

2.1 The county of Gloucestershire covers a diverse range of populations, from the very deprived to the very affluent, from people living in very rural areas to people living in one of two large urban areas where there are a significant number of immigrant populations. This leads to a countywide population with very different health and social care needs, spread over a large geographic area. In recognition of the need to understand and represent these differences, the CCG has formed seven Localities; one of these is for the Tewkesbury, Newent & Staunton area. In each locality lead GPs work alongside key partners to help determine how best to meet the needs of its population, informing the wider work of the CCG; this is known as the Locality Executive Group.

The structure of localities is shown below:

For our locality, these roles are:

- Locality GP Chair: Dr Sarah Fearn
- Locality CCG GP: Dr Jeremy Welch
- Practice Leads:
 - Mythe Medical Practice: Dr Jeremy Welch/Dr Sarah Fearn
 - Church Street: Dr Andy Wales/Dr Andy Rigby
 - Holts Health Centre (Newent): Dr Andy Henson
 - Staunton & Corse Surgery: Dr Mungo Chambers

CCG Locality Support:

- Locality Manager: Kirsty Young
- Senior Locality Manager: Ian Goodall
- Finance Lead: Chris Trout
- Information Lead: Simon Curtis

2.4 The key functions of a locality are:

Planning	Service change delivery	Engagement and relationships
Reviewing health needs, patient insight	Locality specific projects	Utilising/ shaping practice level patient participation groups
Shaping CCG Plans	Local implementation of CCG wide initiatives	Developing links with key community groups
Local delivery plan	Joint initiatives with local partners	Key stakeholders/ partners
Participation	Quality, utilisation and performance	Locality organisational development
Operation of committees, groups and protected learning time	Review locality performance information and take necessary action	Supporting the development of local membership model – e.g. what does greater federation feel and look like
Encouraging wide membership engagement	Understanding variations	Development between localities and the Governing Body
Practice visits and individual membership opportunities	Improving quality and performance	Developing the locality executive

- 2.2 This document will seek to describe the local health needs for the Tewkesbury, Newent & Staunton Locality as it is clear that our population has specific health needs to be addressed. The Public Health team within our Local Authority has supported us to identify and understand these needs. The locality is now working to provide solutions to meet these needs.
- 2.3 In accordance with national requirements and working with partners and stakeholders (including patients, carers and the public), the CCG has formulated a five year strategic plan for Gloucestershire – Joining Up Your Care, which aligns with the Gloucestershire Health Community. This is supported by a more detailed two-year operational plan that identifies our more immediate priorities, from April 2014. They remain within the overall umbrella of the Health and Wellbeing Strategy (‘Fit for the Future’) that sets out the priorities for improving health and outcomes for the people of Gloucestershire from 2012-2032.

**Joining Up Your Care –
Our Shared Vision for the next 5 years:**

To improve health and wellbeing, we believe that by all working better together – in a more joined up way – and using the strengths of individuals, carers and local communities, we will transform the quality of care and support we provide to all local people.

Our Ambitions:

- People are provided with support to enable them to take more control of their own health and wellbeing. Those that are particularly vulnerable will benefit from additional support;
- People are provided with more support in their homes and local communities where safe and appropriate to do so, thus moving away from the traditional focus on hospital-based care;
- When people need care that can only be provided in a hospital setting, it is delivered in a timely and effective way.

- 2.4 This Locality Development Plan must be seen in the context of these important strategic documents; projects and initiatives in the Plan will be complementary to this strategic context and the CCGs operating plan. This Locality Development Plan therefore fits within this wider context as follows:

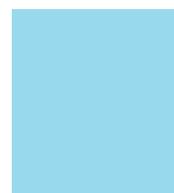

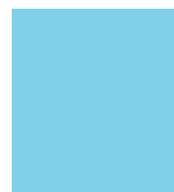

- 2.5 To identify the health needs of the population of Tewkesbury, Newent & Staunton Locality, three main sources of information have been identified:
- Public Health Intelligence
 - Activity, performance and financial data on the use of services, highlighting those areas where the Locality is significantly over or below 'expected' levels. This analysis has included consideration of benchmarking data and information on variation between usage of health care at a GP Practice population level;
 - 'On the ground' intelligence – i.e. conversations with local colleagues who are working directly with patients to understand their views about need.
- 2.6 The Locality Executive Group will work closely with key stakeholders to identify the health and social care needs of the local population, prioritise actions, and provide ideas for how these needs could be addressed. These stakeholders include:
- Local GP Practices and their staff;
 - Gloucestershire Care Services;
 - Gloucestershire Hospitals NHS Foundation Trust;
 - Gloucestershire County Council;
 - Local voluntary organisations;
 - Local Councils; Tewkesbury Borough Council and Forest of Dean (FoD) District Council
 - Patients and their representatives;
 - Zgether NHS Foundation Trust
- 2.7 Whilst assessing the evidence gathered around local health needs, the Locality Executive Group has also taken into consideration the variety of existing work streams within the CCG's countywide Clinical Programme Groups (CPGs) and countywide clinical and service improvement projects – to ensure locality initiatives are complementary or where the locality can support or influence countywide schemes. This will allow for a continuous feedback loop where successful learning from the Locality projects can be embedded into the CPGs, and also from the CPGs into the locality.

3 Key Achievements to date

3.1 Key achievements of the Tewkesbury, Newent & Staunton Locality from the previous 2013-2015 plan are detailed below:

- A locally available **Acupuncture Service** to support patients with pain management close to their homes, seeing positive impact on primary care and prescribing with patients reporting improved mobility and reduced pain following treatment.
- Implementation of **Social Prescribing** for patients with non-medical needs in partnership with Tewkesbury Borough Council and FoD District Council. This has opened up the opportunity to utilise community services and support groups that were often previously unknown to patients and GPs.
- Tewkesbury launched the **Pharmacy First Minor Ailment** scheme along with colleagues in Gloucester City. This links with and supports the use of extremely experienced local pharmacists who are often more conveniently placed to manage common minor ailments, freeing up GP time for more complex cases and chronic disease management.
- **24hr ECG Service** and **GPSI Dermatology Service** available across all practices providing an increased local provision of planned services
- Work to support the new **Tewkesbury Community Hospital** and planned move to the **new Practice site** in 2016/17.
- Targeted education for GPs and Practice Nurses through **Protected Learning Time (PLT) Events** to cover Pediatric Urgent Care, Mental Health, Children's Safeguarding and Pain Management.
- Supporting the introduction of **Integrated Community Teams** and Rapid Response, to provide more integrated care in the community; with an aim to reduce emergency admissions and support patients in the community.
- Supported a reduction in admissions through the **Care Homes Enhanced Service** pilot, which provides increased GP involvement in, and support for, people in Older People Residential and Nursing Care Homes across the county.
- Full representation from all Practices on the Locality Executive Group who meet monthly to support two way engagement between the CCG and Member Practices. Ensuring the voice of local GPs is heard and reflected within the work programme and priorities. Locality practice finance and information variation reporting has been used to inform the Locality Executive's decision making.
- Member practices have engaged and contributed to countywide clinical programmes of work, which through the planning process for 2015/2017 shows where the locality's focus will be.
- The **Locality Reference Group** which includes Patient Participation group Chairs from the five practices, local councillors and Healthwatch as well as representatives from other local groups has been active and continues to review, challenge and support local initiatives.

3.2 Prime Minister's Challenge Fund

3.2.1 GPs from all localities have been key contributors to a successful application for the Prime Ministers Challenge Fund (PMCF) relating to improving access to general practice, thanks to joint working between the GP provider organisation, Gloucestershire Doctors (G-DOC) and the CCG.

3.2.2 In securing this £4m of additional national funding, localities will be supporting the delivery of providing local people with improved access to GP services in Gloucestershire, This includes the creation of 100,000 appointments a year across all localities to free up time in surgeries to be used on more planned and complex work with patients who have a long term condition. The bid also included greater use of technology, additional specialist nursing, case management and social prescribing.

3.2.3 A Delivery Board has been established to make key decisions and will include representation from each of the seven Gloucestershire localities.

4 Local Service Provision

4.1 The Tewkesbury, Newent & Staunton locality comprises of Newent, Staunton and Tewkesbury Town Centre; with the total area covering around 42,625 people. There are 4 GP practices in the Locality noting the merger of Jesmond and Watledge Practice which took place on 1st April 2015 to form Mythe Medical Practice.

- Mythe Medical Practice; two sites cover (previously Jesmond Practice) GL 20 5RF and (previously Watledge Practice) GL20 5QQ
- Holts Health Centre GL18 1BA
- Staunton & Corse Surgery GL19 3RB
- Church Street GL20 5RY
- Tewkesbury Community Hospital GL20 5QN
- Dilke Community Hospital GL14 3HX
- Lydney Community Hospital GL15 5JE
- Avon House GL20 8SJ
- Marina Court GL20 5AY

4.2 The Practice list sizes are as follows:

- Mythe Medical Practice (12,554)
- Holts Health Centre (10,577)
- Staunton & Corse Surgery (6,401)
- Church Street (13,093)

Correct as at 1 April 2015

4.3 In addition to the main acute hospitals in Gloucester and Cheltenham and the GP practice sites, local NHS health services are also delivered from:

- Tewkesbury Community Hospital
- Dilke Community Hospital
- Lydney Community Hospital
- Avon House
- Alongside these some health services are available within Marina Court

4.4 For patients living in any part of Gloucestershire their health issues are often closely linked to other 'social' factors, such as employment, education, and housing. We are committed to working in partnership with the Local Authority and third sector partners to both find and implement solutions. Therefore, the CCG also commissions a range of services from the local Voluntary and Community Sector.

5 What are the issues we face?

5.1 Over the last few months' colleagues from across Public Health, Local Councils and the CCGs Finance and Information team have held planning meetings to work together to identify which potential priorities the locality might want to consider based on relevant data.

These priorities were presented to the Locality Executive Group for consideration and discussion before agreement on which key priorities they want to focus on for the next two years (2015 – 2017).

Below is a summary of information provided by Public Health, Finance & Information, the Councils and 'on the ground intelligence' which has been collated into a locality plan on a page (see section 5.5) to show how all the contributing factors have informed the locality work plan for 2015-17 (section 6).

5.2. Public Health Information

The Local Authority in Gloucestershire produce a Joint Strategic Needs Assessment (JSNA); this highlights the medical conditions that particularly affect the population of the county and its localities. It also highlights population changes over the coming 20 years.

A significant challenge for analysing the health needs is the rationale in population between Tewkesbury, Newent and Staunton Boroughs (need analysis) with the locality commissioning catchment (practice based); as the four practices sit across Tewkesbury Borough and FoD District. Therefore please note this data is based on Tewkesbury Borough:

5.2.1 Demographics:

Tewkesbury is projected to see above average population growth through to 2021 (11.7% compared to a county growth rate of 7.6%) which may lead to increased demand for services. The district is projected to see some of the fastest growth in the county in those aged 0-17 years and those aged 75 plus and 85 plus; the later having implications for the prevalence of age related long term conditions.

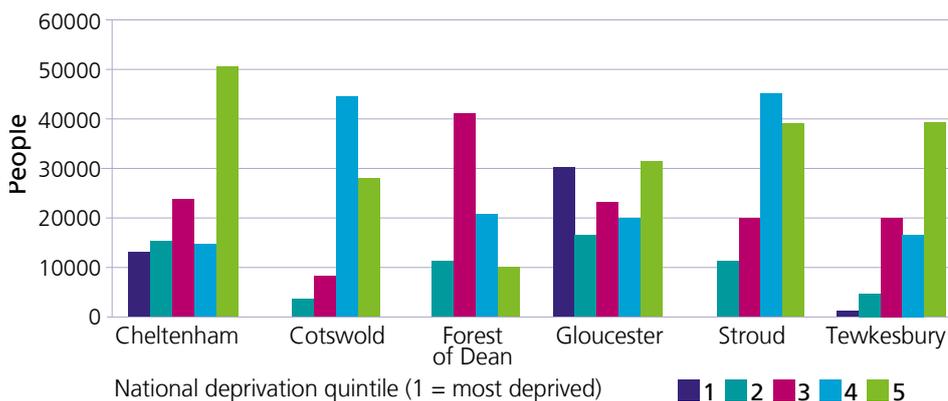

5.2.2 Deprivation:

Indices of Deprivation are national measures which highlight characteristics of deprivation such as unemployment, low income, crime and poor access to education and health services.

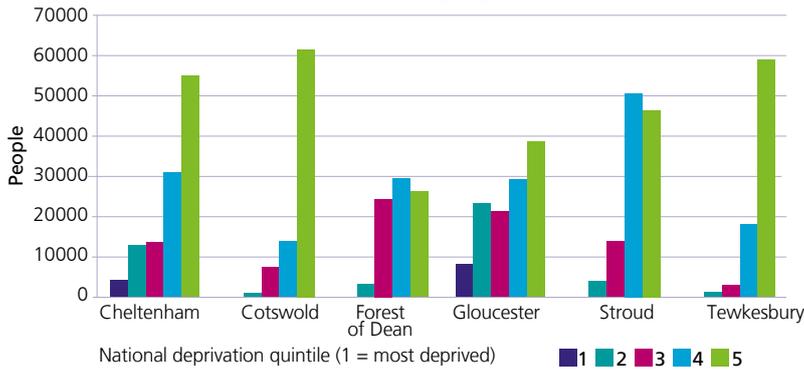

Based on 2010 figures; with quintile 1 indicating the most deprived and quintile 5 indicating the least deprived, Tewkesbury District's overall deprivation and specific health deprivation is specified below:

Overall deprivation by district

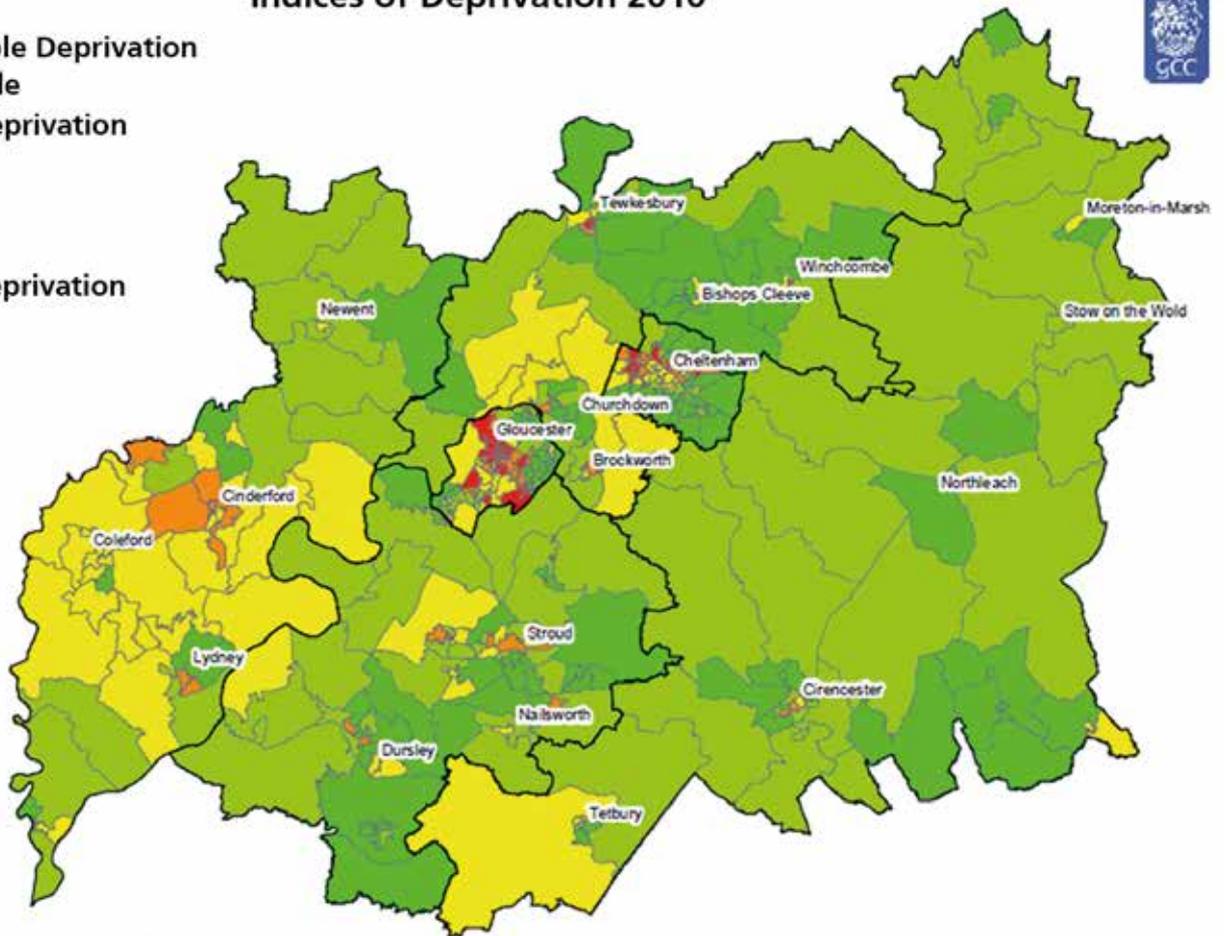

Health deprivation and disability by district

Indices of Deprivation 2010

Index of Multiple Deprivation National Quintile

Research Team SL: 14/04/2011

5 Miles

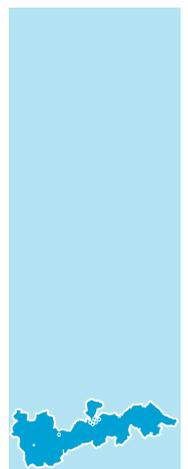

© Crown Copyright and database right 2011, Ordnance Survey 100019134

5.2.3 Life Expectancy:

Life expectancy in men and women is significantly better than the national average and in line with the county average.

5.3 Locality Developments:

Mythe Medical Practice and Church Street Practice will move into their new build super surgery on the Tewkesbury Community Hospital site on Barton Road in 2016/17.

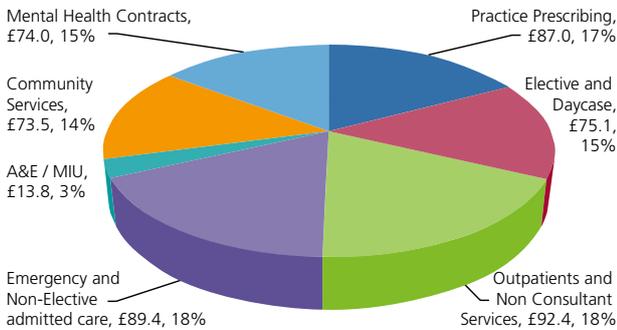

5.4 CCG Finance & Information Data

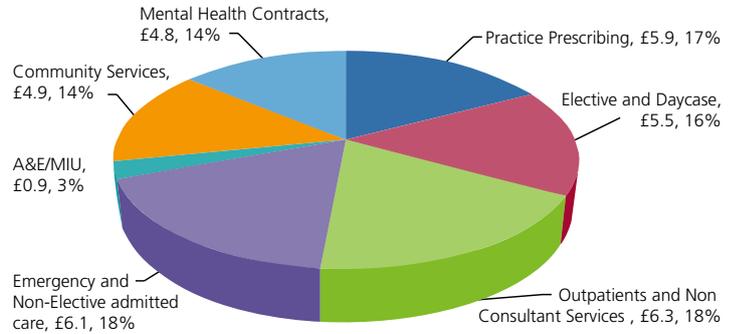

5.4.1 Analysis of NHS resource utilisation demonstrates variation exists not just at a CCG level, but also between and within localities. In addition, GCCG have specific performance issues along with finite financial resources, which, as a membership organisation, the locality can support.

The below charts show the value and proportional split of the key spending themes for both Gloucestershire CCG and the locality:

Gloucestershire CCG 14/15 Spending (£m) by area

Tewkesbury 14/15 Spending (£m) by area

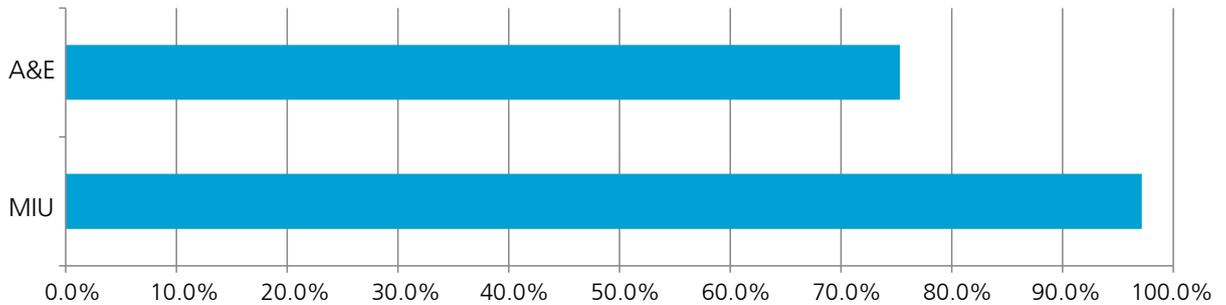

NOTE: These charts exclude other smaller areas of commissioning spend, such as maternity services, ambulance services, continuing health care, CCG running costs and reserves.

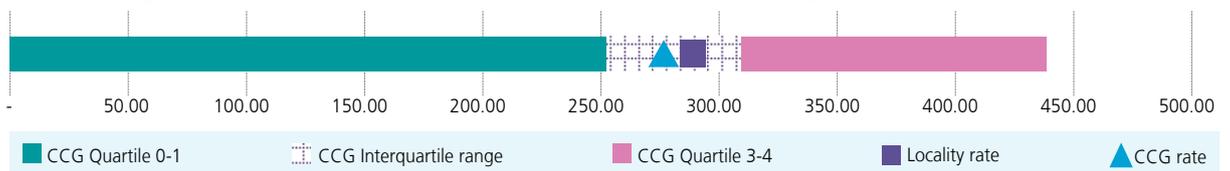

In the context of this wider financial picture the business intelligence team has reviewed activity, performance and finance data from commissioned services to assess where there are significant variances from the levels expected for the locality; this has highlighted the below key areas for further consideration.

5.4.3 A&E / MIU attendance

Tewkesbury: Percentage of A&E and MIU Attendances that only required 'Guidance/Advice' during 2014/15

Tewkesbury, Newent & Staunton A&E / MIU Attendances – rate per 1,000: All Providers

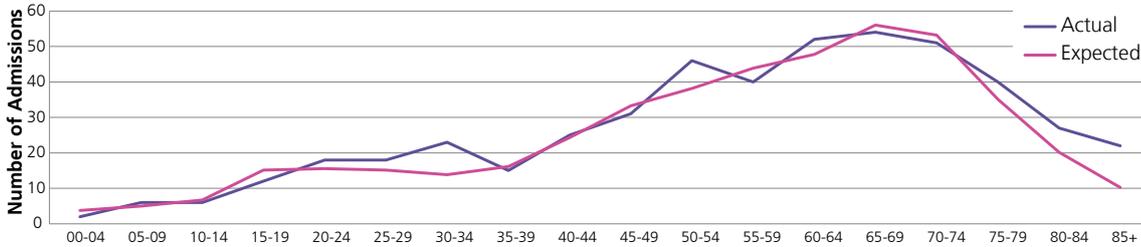

The above graphs demonstrate the utilisation of A&E and MIU by patients within the Tewkesbury, Newent and Staunton locality. The first chart suggests a majority of patients attend these services and receive advice and guidance only, while the second chart shows that the Tewkesbury, Newent and Staunton locality is around the CCG average for utilisation of these services per thousand patients. The locality will work alongside countywide CCG programmes of work to best understand patient need and ensure appropriate services, engagement and communication is in place.

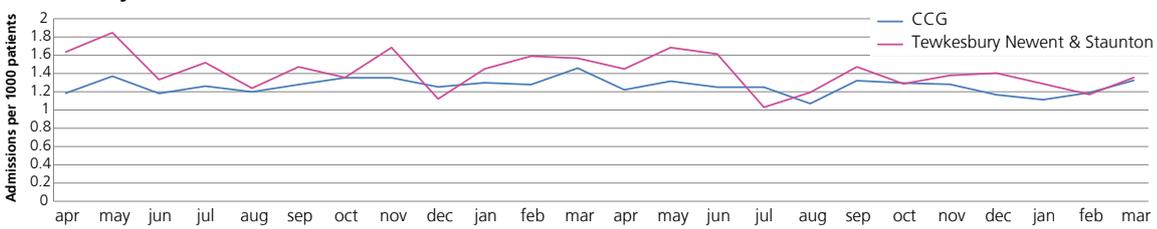

5.4.4 Elective admissions: Orthopaedics

The locality has greater orthopaedic elective admissions than would be expected for their patient population. Initial analysis of the data suggests that the spend on this specialty area is more than £250,000 higher than the expected level. The locality plan to work with the MSK Clinical Programme Group to determine the reasons for the variation and which specific work programmes the locality's practices can engage with to better understand and address the variation.

Orthopaedic Elective Admissions: Tewkesbury, Newent & Staunton – Actual Activity vs Expected Activity 2014/15

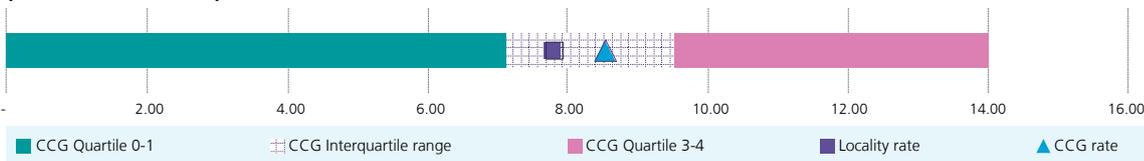

Trend Graph of Orthopaedic Elective Admissions per 1000 patients April 2013 – March 2015: Tewkesbury, Newent and Staunton v CCG

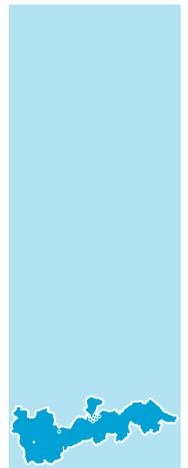

5.4.5 Emergency admissions: General Surgery

While the locality's emergency admissions rate per 1,000 patients is slightly below the CCG average, the number of admissions is actually above the 'expected' level for the locality's population, with three of the five practices at variance. The locality will be analysing this data further and also examine usage of the local Integrated Community Teams (ICT's) to further understand the issues and how the locality can respond accordingly.

Tewkesbury, Newent & Staunton General Surgery Emergency Admissions rate per 1,000 population comparison (2014/15 All Providers)

Trend Graph of General Surgery Emergency Admissions per 1000 patients April 2013 – March 2015: Tewkesbury, Newent & Staunton v CCG

5.5 Critically we face an unprecedented financial challenge over the coming years, at the same time as increased demands for all services within the context of a fast ageing population.

At present around 17% of Gloucestershire’s population are aged 65 and over; this is expected to grow to 30% over the next 20 years. We will therefore need to provide services that are simple to access, integrated and cost effective.

As well as the information provided through the JSNA and CCG activity data, we want to strengthen this by understanding the views of people working alongside our patients in the community.

All of this information was collated into Tewkesbury, Newent and Staunton’s locality plan on a page, which was developed to show all the contributing potential priorities initially presented to the locality and how these have fed into the overall locality work plan:

Tewkesbury, Newent & Staunton Plan on a Page:

6. Locality Work Programme for 2015/16

6.1 As a locality we will be continuing a number of work streams identified throughout 2013/15, which will roll forward into 2015-2017. We will also be exploring new work streams which will address some of the local health needs and issues identified through our information gathering exercise in section five. With our CCG, GP Practice and other colleagues, we will work hard to address these.

The locality work programme will be regularly monitored to assess progress, with a formal review at the CCG's Governing Body meeting every three months.

Recognising though that we need to prioritise our work as a Locality, we have summarised what we aim to achieve in 2015/16 in the work programme below:

Priority Action Area Proposed scheme	Lead Locality GP	Lead manager (from CCG or other partners)	Expected Outcomes/ impact	Key Contributors	Expected initiation date	Expected completion date
Continuation of Existing Work Priorities (from 2013-15)						
Reduction in Elective Admissions MSK Trauma & Orthopedic (link to podiatry)	Jeremy Welch	Annemarie Vicary/Carl Davies	Increased use of local MSK interface services through proactive work with the local interface service and GP practices. Reduce activity and spend within Elective admissions	CCG MSK Clinical Programme Group CCG Planned Care Team GP Practices in Locality	Ongoing	Ongoing
Urgent Care Reduce Emergency Admissions	Sarah Fearn	Maria Metherall	Understand current admissions; particularly areas of significant increase Liaise with Urgent Care work stream to support developments in order to impact the locality position; with a focus on living well and the role of Integrated Community Teams (ICTs) Reduce activity and spend within emergency admissions Work towards more integrated care in the community.	CCG Urgent Care Team GP Practices in Locality Gloucestershire Care Services ICT	Ongoing	Ongoing
Practice Variation	Jeremy Welch	Helen Goodey/ Stephen Rudd	Identify areas of focus based on benchmarking/information Agree areas for review by individual practices	GP Practices in Locality, CCG Leads	Scoping Phase	Ongoing
Care Home Admissions Adult Safeguarding	Sarah Fearn	Helen Goodey/ Mary Morgan	Support the countywide Care Home Enhanced Service Reduce admissions from care homes Improve completion of care plans Improve prescribing (Pharmacist Pilot)	GP Practices in Locality CCG Community Team	Ongoing	Ongoing

<p>Locality Area Co-ordinator (Living Well) & Social Prescribing</p> <p>Joint funded pilots in conjunction with the council; to offer patients with non-medical needs referral to a Social Prescribing Hub Coordinator who can address their needs; i.e. isolation, housing etc.</p> <ul style="list-style-type: none"> - Tewkesbury Town Pilot - Newent & Staunton Pilot; linking into the FoD Social Prescribing Hub 	<p>Jeremy Welch</p>	<p>Helen Edwards/ Kirsty Young</p>	<p>Tewkesbury Town Social Prescribing Pilot</p> <p>Newent & Staunton Social Prescribing Pilot (as part of FoD Social Prescribing Pilot)</p> <p>Informing ICT model</p> <p>Person centered care</p> <p>Increased awareness and utilisation of identified voluntary sector organisations in Tewkesbury, Newent & Staunton</p> <p>Increased engagement between health and borough council.</p> <p>Reduced primary care appointments</p> <p>Improved patient well-being (WEMWBS)</p>	<p>Tewkesbury Borough Council</p> <p>FoD District Council</p> <p>CCG</p> <p>Local Voluntary and Community Sector Organisations</p>	<p>Tewkesbury Pilot commenced April 2015</p> <p>Newent & Staunton Pilot Aug/Sep 2015</p>	<p>Pilots to run until end of March 2016 (minimum), to inform wider county commissioning</p>
